Subject: RUSH sequence search request for 09/206132

I would like to request for a RUSH sequence search for the above application, because it is an amended case due this bi-week.

Please search:

(1) SEQ ID NO:1 against interference search database ONLY.

(2) A nucleic acid molecule encoding the amino acid of SEQ ID NO:2 against commercial, US and pending patent application databases.

I am in AU1636, my mailbox is in CM1-11E12.

THANK YOU.
